

Hey guys. It's been years. Friendships and bonds have been made. Tattoos have been permanently put on my body.

From the age of 16 - YOU as a collective, helped me become the me I am today.

And that's why I'm doing this and standing up for myself.

Every response you have made has been too little and way too fucking late. When 9/11 happened - you had a song written and recorded in like a week.

How fucking dare you brush this under the rug and hide like cowards.
Not even a video response with the 3 remaining dudes - again. Cowards.

Complacency.

So as a collective - Fuck The Flag and Fuck You.

People have looked to you for decades and this is how you decide to STAND UP AND SPEAK OUT?!?

Guess you didn't wanna "talk talk talk talk about it." Figured you could "tip toe around it."

But to the band that should believe women...

You dropped the ball and every ounce of respect is gone.

I honestly haven't heard from Head since day one when he said things would be worse. I tried to send words of affirmation and just to be a friend...

Not even a thanks.

Oh and not even a "we are donating all proceeds to x women's charity"

Literally fucking nothing.

- Former close friend of the band
